VX-450 Series

VHF/UHF Portable Radios

Durable On-the-Job Responsiveness

The industrial grade VX-450 Series maximizes worker uptime with expanded safety applications and convenient built-in features designed for heavy duty use.

Monitor Worker Safety

As with all Vertex Standard radios, the VX-450 series includes built-in Emergency and Lone Worker alerts. Emergency notification is user-initiated with a press of a button for the radio to switch to a designated channel and send an alert for help. Lone Worker mode is a built-in timer that requires the user to reset at a predetermined interval. If not reset, the radio automatically switches to Emergency mode to alert help.

When constant contact is required at all times, Vertex Standard's exclusive Auto-Range Transpond System (ARTS™) is included to inform the user that other ARTS™- equipped radios are within communication range.

No two job sites are alike and the optional Man Down function (with DVS-9 unit) is programmable to monitor a variety of worker timed safety scenarios vertically and horizontally as well as worker degree of motion. Adjusting the settings of the 3-axis sensor adapts the radio to each distinct work environment to monitor movement.

Solid Build for Extreme Environments

The VX-450 Series withstands job site abuse meeting military standards for ruggedness and meets the IP57 ingress protection standard where water does not harm the radio when submersed to a depth of 3 feet for up to 30 minutes.

Audio and Voice Responsiveness

Features 700 mW loud audio output ideal for noisy work environments.

Includes Channel Announcement which loudly speaks the channel description to simplify changing channels when focused on other tasks simultaneously.

Features voice activation (VOX) when used with MH-81A4B headset that enables users to transmit voice without pressing the Push To Talk button for hands-free operation.

Record and store up to 120 seconds of voice messages using the optional DVS-8 Voice Storage unit.

Built-in Selective Signaling Modes for Greater Flexibility

Includes MDC-1200® encode/decode along with both 2-tone and 5-tone encode/decode providing selective radio calling and efficiency in supporting a variety of discreet communications needs.

Large Group Communications Made Easy to Manage

Both the VX-459 and VX-454 radios have a massive 512-channel capacity and 32 groups to easily manage a variety of calls at the most complex job site or plant operation. The VX-459 also includes Direct Channel Entry to punch in the channel desired from the keypad for fast navigation.
ACMA Narrowband Compliant

400MHz narrowband compliant.

The ACMA intends to ensure all radios are narrowband compliant by 31 December 2015 in urban areas and by 31 December 2018 in rural areas.

Meets the following standards: AS/NZS4295, ISO9001 and ISO4001.

Additional Features

- Nine programmable keys (VX-459)
- Seven programmable keys (VX-454)
- Three programmable keys (VX-451)
- 8-Character alphanumeric display (VX-454/459)
- Voice inversion encryption
- Manual on/off encryption activation
- RX/TX Battery power save
- DTMF ANI
- DTMF Speed dial
- DTMF Paging
- CTCSS / DCS Encode and Decode
- Stun/kill/revive (5-tone)
- Compander
- Clear voice
- Whisper
- Minimum volume control
- Manual squelch adjustment
- BCLO, BTLO and TOT Functions
- Programmable LED color alert
- Priority scan
- Dual Watch scan
- Follow-me scan
- Talk Around scan
- Radio-to-radio cloning

Accessories

- MH-360S: Compact speaker microphone
- MH-37A4B: Earpiece microphone
- MH-450S: Speaker microphone
- MH-45B4B: Noise cancelling speaker microphone
- MH-81A4B: Over-the-head light duty VOX headset
- VH-110S: Over-the-head heavy duty dual-muff headset
- VH-115S: Behind-the-head headset w/boom mic
- VH-215S: Over-the-head single-muff headset
- VH-120S: Earpiece mic w/palm PTT switch
- VH-130S: Earpiece w/palm mic and PTT switch
- FNB-V113LI: 2400 mAh Li-Ion battery
- VAC-6450: Multi-unit charger

Option Boards

- DVS-8: Digital voice storage unit
- DVS-9: Man down alert with digital voice storage
